

# THE LIVER CIRCLE

## OUR PROGRAMS

In-person peer support connecting patients and caregivers with trained advocates in hospitals and transplant centers during diagnosis, recovery, and complications.

---

An online educational web series bringing together medical experts and lived experience to provide clear, credible insights into liver health, transplantation, and organ donation.

---

An interactive, peer-led program combining nutrition guidance and practical support to help patients apply medical recommendations through guided, cook-along sessions.

---

# THE LIVER CIRCLE

A liver disease diagnosis isn't a dead end.

With the right knowledge and support, no one has to face this journey alone.

---

## OUR MISSION

To educate and empower people about liver health by sharing lived experiences and amplifying the work of partner organizations.

---

## OUR VISION

A future where lived experience drives liver health education and every person affected by liver disease feels seen, supported and empowered.
